PRODUCT DESCRIPTION:

RAINBOW COMMERCIAL WHITING is a fine ground calcium carbonate with a broad variety of uses. It can be used as a mild abrasive in cleaning and scouring powders for porcelain, ceramic tile and glass. For paint, it can be used both as an extender in paint pigments, as well as an additive to paint in order to thicken the paint for increased coverage and improved hiding power.

USES:

- ▶ Mild abrasive in cleaning and scouring powders
- ▶ Mild abrasive in liquid polishes and tarnish removers
- ▶ Mild abrasive in glass cleaners
- ▶ Extender and thickener for paint

ADVANTAGES:

- ▶ Uniform particle size
- ▶ Will not scratch most surfaces

APPLICATION:

Surface Preparation:

Even though *COMMERCIAL WHITING* is used in cleaning and polishing compounds, it is best to remove all excess dirt from items to be cleaned.

Mixing:

To make cleaning and scouring powder for porcelain, ceramic tile and painted woodwork, dissolve $\frac{1}{4}$ cup of soap flakes into 1 cup of boiling water and pour into a wide mouth glass jar. When mixture is cool and jellied, add 1 cup of *COMMERCIAL WHITING* and mix thoroughly.

To make a liquid polish and tarnish remover for highly polished kitchen appliances and auto trim, mix equal parts of a thin petroleum vehicle or soap solution with *COMMERCIAL WHITING*. Liquid polishes are more effective than pastes where a great deal of tarnish has to be removed.

To make a glass cleaning compound, make a paste of *COMMERCIAL WHITING* and water. To improve the effectiveness of the mix, replace $\frac{1}{8}$ of the water with an equal amount of denatured alcohol and household ammonia.

When using *COMMERCIAL WHITING* as an extender and thickener in paint, add slowly while stirring.

Directions:

Apply cleaning compound with a soft cloth and rub lightly. Rinse off thoroughly after application.

Coverage:

The amount of surface area cleaned will vary with the type of mixture used and the type of surface being cleaned.

Packaging:

Available in 1 pound boxes with sealed plastic bags (12 per carton), 5 pound boxes with sealed plastic bags (6 per carton) and 25 pound and 50 pound multiwall paper bags with moisture barrier.

Color:

White

TECHNICAL DATA:

Mohs hardness	3.0
Dry brightness.....	93.0
Residue on 325 mesh	<.5%

LIMITATIONS:

Care should be taken not to rub too hard, as possible scratching may occur.

CAUTION:

Keep Out Of Reach Of Children.

WARRANTY:

Due to the use of this product beyond our control, we assume no liability for damages of any kind, and the user accepts the product "as is" and without warranties, expressed or implied, from either Empire Blended Products or its agents. The suitability of the product for an intended use shall be solely up to the user. Our only obligation shall be to replace or pay for any material proved defective, with our liability limited to the purchase price of materials supplied by us.
